DETAILED ACTION

1. Claims 1-4 and 16-18 are rejected under 35 U.S.C. 112, first paragraph, as based on a disclosure which is not enabling. The use of at least two laser micrometers is critical or essential to the practice of the invention, but not included in the claim(s) is not enabled by the disclosure. See *In re Mayhew*, 527 F.2d 1229, 188 USPQ 356 (CCPA 1976). The use of at least one laser micrometer is not supported by the instant specification. At least two laser micrometer are needed to calculate the volume of the preform, i.e., one laser micrometer to measure the length and the other laser micrometer to measure the diameter.

2. Claims 1-4 and 16-18 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1 is indefinite because performance of the claimed steps do not produce golf ball cores. Steps of molding the preform that has a measured volume substantially equal to the predetermined standard preform volume are missing.

The phrase "the measurements" (cl 1, ln 5) lacks antecedent basis in the claims.

Correction is required.

3. Applicant's arguments with respect to claims 1-4 and 16-18 have been considered but are moot in view of the new ground(s) of rejection.

4. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP

Art Unit: 1732

In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
